

# DOMESTIC ENTRY SOLUTIONS

Dahua's Video Intercom product line-up eases communications between visitors, home owners, and property management centre's.

Working closely with Dahua we have put together an array of solutions with a line up consisting of IP, Wi-Fi, 2-wire and analogue-based solutions for homes, small apartments, and large apartments.

The systems not only allow you to receive calls through an intuitive mobile app but enable you to view, talk & remotely unlock doors from anywhere, no visitor or message will be missed.

## KEY FEATURES

- 7-inch capacitive touch screen, resolution 1024x600
- IPC surveillance via HD CMOS camera
- Alarm integration
- Night vision
- Door control— can release the door if required
- Wi-Fi & POE options (no batteries to replace)
- Receive calls from the door from anywhere through our intuitive mobile app.
- CCTV and alarm integration offer more intelligence and security
