National Security Project Engineer

COMPETITIVE SALARY (BASED ON EXPERIENCE / QUALIFICATIONS) | 40 HOURS OVER 4 DAYS
FULL TIME | PERMANENT | COMPANY PHONE / LAPTOP & VEHICLE
28 DAYS ENTITLEMENT (INCL. BANK HOLIDAYS)

ABOUT US

CIA Fire & Security Ltd is a leading, security business based in Cirencester, Gloucestershire.

Our systems can be seen all over the United Kingdom and parts of Europe. We pride ourselves on installing and maintaining bespoke security and fire protection solutions utilising the latest proven technology.

Since 1982, CIA has evolved from being a one-man operation into a successful company with over 80 members of staff. We have developed a strong reputation for providing a fantastic level of service, reliability and uncompromising expertise. This reputation has been earned by recommendation from satisfied customers, local authorities and business providers.

CIA has been successful in delivering to clients with a wider range of amenities, supported by a reliable and dedicated 24-hour service team. In extending the operational areas, continued customer service has been captured, with particular focus paid in fulfilling client requirements and expectations.

CIA is proud to be BAFE SP203-1 approved and NSI Gold accredited for both security and fire alarm systems. CIA is certified by ISO 9001:2015, which highlights our commitment to excellence. We are on the approved register of installers for over 35 different constabularies within the UK and Ireland.

ROLE OVERVIEW

This role incorporates two different aspects of security to help service our National Clients. Primarily this is an exciting opportunity for a motivated individual to get their teeth into a practical role travelling round the country assembling a modular gate entry system.

The ideal candidate for this role will be electrical and mechanically minded and ready to overcome any practical challenges that come their way.

Working on a contract we have with a national association to install and maintain the gates that access their facilities. Working with our software partner, we install the gate and access systems that allow for the public to book and pay for the facilities online and then be given a code to access the facility.

The role is field based and calls for the right candidate to travel each week, however, our head office and central store is in Cirencester, Gloucestershire.

The candidate must be well organised and deliver excellent customer service.

Full training would be given to the successful candidate and further training may be offered in other aspects of the company such as Intruder and CCTV Systems as required.

ABOUT YOU

- **Electrical/Mechanical experience**
- **Basic metal work skills**
- **Technically minded, logical thinker**
- **Physically fit and happy to work in all weathers**
- **Happy to stay away from home on a regular basis**
- **Excellent problem solver**
- **Can work independently**
- **Willing to learn the different aspects of the company**
- **Full UK driving licence**
- **Must pass a CRB/DBS check**
