

PROVIDING PEACE OF MIND
Since 1982

ABB LTD STONEHOUSE

ABB Ltd., formerly ASEA Brown Boveri, is a Swedish–Swiss multinational corporation headquartered in Zürich, Switzerland, operating mainly in robotics, power, heavy electrical equipment, and automation technology areas.

It is ranked 341st in the Fortune Global 500 list of 2018 and has been a global Fortune 500 company for 24 years. Until the sale of its Power Grids division in 2020, ABB was Switzerland's largest industrial employer. ABB is traded on the SIX Swiss Exchange in Zürich, Nasdaq Stockholm and the New York Stock Exchange in the United States.

ABB's expansion of their Stonehouse facility required significant expansion and modification to the existing fire and security systems. CIA's ongoing relationship with ABB put us in a great position to understand ABB's requirements. Key to the project was to design a program that ensured 100% continuity of protection with zero down time.

"I would like to say that CIA has given excellent service at ABB for many years now and continue to do so. CIA have always done things in a timely manner with quality at the forefront."

Gary Court (Deputy Facilities & Maintenance Manager)

PROJECT SUMMARY

BUILDING TYPE

Industrial Manufacturing Units

TIMELINE

Initial expansion works circa 3 months, in line with main contractor program of scheduled works.

REQUIREMENTS

Supply and expansion of intruder alarm, fire alarm and CCTV systems. Ongoing service and maintenance.

TECHNOLOGY

- CCTV Cameras
- Intruder Alarm
- Fire Alarm System
- Gate Automation
- Fire Extinguishers
- Audio Access Control
