

PROVIDING PEACE OF MIND
Since 1982

PROJECT SUMMARY

BUILDING TYPE

College

TIMELINE

On going service and relationship

REQUIREMENTS

To provide a 24/7 fire and security service and maintenance package across Rendcomb College's diverse estate

TECHNOLOGY

- CCTV Cameras
- Intruder Alarm
- Fire Alarm System
- Gate Automation
- Fire Extinguishers
- Access Control

Rendcomb College dates back to 1920 when it was founded by Frederick Noel Hamilton Wills whose uncle and cousins had earlier endowed buildings at Bristol University. Since celebrating its centenary year in 2020, they maintain a vision and ethos that remains true to Wills' original values of providing an inclusive and broad-ranging education for their pupils.

Located in the picturesque Cotswold village of Rendcomb, the College provides a safe, stimulating and enchanting environment for our pupils who benefit from the ample on-site facilities within our 230 acre estate.

CIA are proud to have supplied fire and security services to Rendcomb College for over 20 years. During this time, CIA has worked closely with the college to ensure that each fire and security system is serviced and maintained in keeping with current BS & EN standards. This has seen an evolution of upgrades as technology advances and society evolves.

An example of a key project was the design and installation of a fully addressable fire alarm, intruder alarm, CCTV and access control systems to the new Griffin Theatre facility.

"We have a good, long-standing relationship with CIA, who have supported us with our intruder and fire alarm systems, CCTV, access control, fire extinguisher servicing and gate automation. I have come to know and trust the good service CIA, their office staff and engineers provide."
