SMART ACCESS

The management system which helps automate your sports venue's access and lighting through the Club Spark booking system

We've combined our experience with security and gate access with Club Spark's innovative club management suite to create Smart Access. It's designed to allow courts, pitches and fields a flexible, reliable and secure way to give clubs com-

ENTRY

Each venue has a controller that connects to the internet via 3G or WIFI. ClubSpark constantly updates the controller with booking and entry information to always ensure instant access. The controller also monitors the health of the system and continuously feeds information back to ClubSpark. This controller can also be connected to all kinds of devices to manage automation and on-site access.

LIGHTING

Control Floodlighting can also be configured to turn on when the venues are in use. They also have the ability to allow for different warm-up and cool-down periods. LED floodlights can be set to turn on automatically if there's a booking and when a player accesses the gate. Halogen floodlights can be configured to turn on prior to a booking and stay on if there's a concurrent booking.

ACCESS

Manage multiple gates and entry points. Each gate is fitted with a pin code keypad and proximity reader which connects to the central controller and lock for the gate.

MANAGEMENT Options

1. Booking times with in Clubspark could be set so there is a delay between bookings to avoid a cross over of players.

2. Player booking times could be governed by age, so say over 65's only between 8.00am and 10.00am.

3. NHS/Key workers could get preferential rates or booking ability to fit in around their shifts.

4. Notices regarding the covid-19 policy can be attached to the booking confirmation.

5. Online booking avoids cash transactions.

6. Automatic light controls removes the need of touching switches on site or buying and using tokens

COVID-19

we can also offer an Anti Microbial Coating. Preventing the transfer of bacteria and viruses from door handles, finger plates and pull handles is just one way to help protect staff in their working environment.

Real time Reporting   Multi-venue   Increased Revenue   Resource Control   Easy access   Safe & Secure
